

ABOUT ME

IT Service Desk professional with 1+ year of hands-on experience providing L1/L2 support onsite and via telephone, email and remote tools in enterprise environments, including Citrix-based virtual desktop and application support. Proven ability to enter, assign, track and resolve tickets in ServiceNow and related ITSM platforms while maintaining strict SLA adherence. Skilled in troubleshooting Windows 10/11, Microsoft 365, VPN, Active Directory, shrink-wrapped applications, Citrix Workspace, and remote control tools (TeamViewer, Quick Assist). Ability to explain complex technical solutions in layman's terms and collaborating with resolver groups to achieve speedy ticket resolution.

WORK EXPERIENCE

Desktop Support Engineer (Contract) Dec 2025 – Present
Sky Systems (Wipro/Microsoft Program)

- Provided Service Desk support including L1 desktop, AV, and basic network troubleshooting within a large enterprise environment under the Wipro/Microsoft program.
- Owned high-priority incidents end-to-end, coordinating with various resolver groups to drive speedy resolution and meet strict SLA requirements.
- Troubleshoot and resolved complex issues across Windows 10/11, Microsoft 365, VPN connectivity, and virtual application environments
- Supported meeting rooms and conferencing systems (Microsoft Teams Rooms, Webex, Zoom), ensuring readiness and minimal disruption.
- Performed break-fix support, device replacements, and coordinated hardware repairs for desktops, laptops, and printers.
- Properly documented, tracked, and updated problem tickets in ServiceNow, ensuring accurate user statistics and adherence to ITSM escalation procedures.

IT & Operations Coordinator May 2024 – Oct 2025
Orizon Energy

- Acted as primary point of contact for service requests, responding to user questions via telephone, email, and web to provide prompt and accurate solutions.
- Provided L1 technical support and troubleshooting for a wide range of shrink-wrapped applications (MS Office, Adobe, Google Workspace) across a multi-vendor environment, effectively translating complex solutions into layman's terms for non-technical users.
- Administered user accounts, passwords, and privileges using Active Directory; managed onboarding/offboarding and system access rights.
- Maintained asset inventory, coordinated equipment procurement, and supported meeting room AV setup and troubleshooting.
- Provided end-user support for Citrix Workspace environments, assisting users with application access, login authentication issues, and basic troubleshooting of virtual application sessions.
