ABOUT ME

Help Desk Level / Deskside Support Specialist with 2+ years of hands-on onsite and remote support experience in enterprise and education environments supporting onsite and distributed users. Skilled in ticket triage, incident resolution, escalation handling, Active Directory, device administration & deployment, and ITSM workflows. Strong experience and knowledge of Windows 10/11, Microsoft 365, VPN, printer support, mobile devices, and AV/meeting room technologies. Proven ability to manage full ticket lifecycle, support deployment projects, and maintain SLA-driven service. Experienced with ServiceNow and adaptable to Ivanti ITSM environments.

CORE QUALIFICATIONS

- Level 1 & 2 support, escalation handling, advanced troubleshooting, root cause analysis
- ITSM ticket categorization, triage, prioritization, SLA management, service request fulfillment
- Deployment support, rollout coordination, hardware/software implementation
- AV support: boardrooms, meeting rooms, Microsoft Teams Rooms, video conferencing, live troubleshooting
- Printer fleet support (driver issues, connectivity, vendor coordination)
- Loaner device management, asset lifecycle tracking, inventory control
- Telecom services and mobile device support (iPhones, tablets)
- Remote support tools (Quick Assist, Remote Desktop, Microsoft Teams support)
- Strong interest in computer networking, supported by ongoing study and hands-on experience

WORK EXPERIENCE

Sky Systems – Desktop Support Engineer (Contract)

Dec 2025 – Present

- Provided onsite L1 desktop, AV, and basic network support as end-line field technician in enterprise environments
- Owned high-priority service tickets end-to-end, ensuring resolution within 24 hours in line with SLA requirements
- Troubleshoot and resolved issues across Windows 10/11, Microsoft 365, VPN, LAN/Wi-Fi, and hardware/peripherals
- Delivered hands-on support for meeting rooms and conferencing systems (Microsoft Teams Rooms, Webex, Zoom), ensuring room readiness and minimal disruption
- Performed break-fix support, device replacements, and coordinated warranty repairs for desktops, laptops, and printers
- Provided smart-hands support for infrastructure tasks (cabling, ports, patch panels, device resets, connectivity checks)
- Managed procurement of replacement IT and AV equipment to ensure timely service restoration
- Maintained asset inventory and tracked loaner/spare devices
- Logged and updated incidents in ServiceNow, adhering to SOPs and escalation processes

Orizon Energy – IT & Operations Coordinator

May 2024 – Oct 2025

- Acted as the primary point of contact for office operations and IT support, assisting users via phone, email, and in-person
- Transitioned from field sales into an in-house Office Administrator & IT Support role, taking on internal operations and technical support responsibilities
- Provided in-house L1 IT support, troubleshooting hardware, software, and basic network issues across desktops, laptops, and peripherals
- Administered Scoop CRM, managing user access, data updates, and supporting daily business operations
- Managed full ticket/request lifecycle using ITSM tools, ensuring accurate documentation and timely resolution
- Installed, configured, and maintained IT equipment including desktops, laptops, monitors, docking stations, and printers
- Supported onboarding and offboarding processes, including account setup, system access, and equipment provisioning
- Maintained hardware inventory, coordinated equipment purchases/deliveries, and tracked organizational assets
- Delivered AV and conferencing support for meetings, including setup and troubleshooting of Teams/Webex systems
- Provided remote support and user guidance, ensuring smooth day-to-day operations and minimal downtime
- Maintained confidentiality of company systems and data while supporting internal teams
- Assisted with client interactions and sales support activities, helping address inquiries and contributing to customer acquisition efforts
- Utilized Scoop CRM to track leads, update customer information, and support the sales pipeline

TECHNICAL SKILLS

- **ITSM & Service Desk:** ServiceNow, Jira, BMC Helix, incident management, request fulfillment, ticket triage, categorization, prioritization, escalation, SLA management, knowledge base documentation, onboarding, offboarding
- **Systems & Identity Management:** Windows 10/11, Windows Server, Active Directory (user administration, group management), Microsoft 365 Admin Center
- **Endpoint & Deployment:** Desktop and laptop support, device imaging, hardware deployment, configuration, asset tracking, loaner device management, peripherals, hardware replacement
- **Networking & Remote Support:** TCP/IP, DNS, DHCP, LAN/Wi-Fi troubleshooting, VPN support, remote desktop assistance, Quick Assist, Microsoft Teams remote support
- **AV, Collaboration & Telecom:** Microsoft Teams Rooms, video conferencing tools, meeting room and boardroom support, live AV troubleshooting, mobile device support (iOS/tablets), telecom troubleshooting, printer fleet support

PROJECTS

Enterprise Network Infrastructure Setup and Management

- Built and supported a simulated enterprise Windows Server environment with Active Directory, DNS, and DHCP.
- Performed workstation imaging, hardware installation, network troubleshooting, ticket handling simulation, and documentation aligned with ITIL practices.

Cloud Migration Strategy & Implementation

- Supported a simulated migration from on-premises systems to Microsoft 365 and Azure AD (Entra ID), validating access, authentication, and service functionality.
- Assisted with troubleshooting Outlook, Teams, login, and user access issues and documented support procedures.

ServiceNow IT Asset & Service Management (Capstone Project)

- Designed and implemented a CMDB structure with asset tracking workflows to simulate enterprise IT infrastructure management
- Built and executed end-to-end ITSM processes including incident, service request, and asset lifecycle management within a controlled lab environment, reflecting real-world support operations
- Incorporated endpoint and mobile device management concepts using JAMF/MDM tools for simulated device provisioning, configuration, and lifecycle administration

EDUCATION

Diploma in Information Technology Services (GPA- 3.83)

Southern Alberta Institute of Technology (SAIT), Calgary, AB

January 2024 – August 2025

Relevant Coursework: Enterprise Network Design & Administration (Cisco), Server Administration, Virtualization Technologies, IT Security Principles, IT Help Desk Operations (ServiceNow), Cloud Computing (Azure)

Certificate in JavaScript Technology

Rajesh Patkar Institute of Technology, Mumbai, India

June 2023 – December 2023

CERTIFICATIONS

Cisco Certified Network Associate (CCNA)

CompTIA A+

ITIL 4 Foundation

Microsoft- Azure Fundamentals (AZ-900)

BMC Helix ITSM - Smart IT 22.x: Fundamentals

Service Now ITSM Fundamentals
